Miami, FL · maximus@fourmeasure.com · [linkedin.com/in/maximus-vickers-bb69672b1](https://www.linkedin.com/in/maximus-vickers-bb69672b1)

EDUCATION

University of Miami Herbert Business School | B.B.A. in Management

Aug 2023 – Dec 2026

GPA: 3.6/4.0 · Presidential Academic Scholarship · Provost's Honor Roll & Dean's List · National Society of Leadership and Success

Miami Dade College | Associate in Arts

Aug 2022 – May 2023

GPA: 4.0/4.0 · Dean's List · Pi Kappa Phi Honor Society

EXPERIENCE

FourMeasure | Co-Founder & CEO

Nov 2024 – Present

- Launched consumer music discovery app on the App Store; built product, UX, and go-to-market from concept to live release
- Self-funded development across engineering, design, and infrastructure; led end-to-end execution
- Drove early user acquisition through organic social distribution and targeted outreach strategies
- Conducted extensive user interviews to validate engagement loops and iterated product based on retention-focused insights

Tiger Dams | Strategy & Innovation Intern

May 2025 – Sep 2025

- Helped reposition Tiger Dams from a B2B-only brand to a dual consumer–commercial platform
- Rebuilt website architecture and checkout flow to reduce friction for the new consumer buyers

Cowboys Music Festival | VIP Operations Manager

Summer 2023 – Summer 2025

- Directed 80+ person team across bar, delivery, and bottle service for 800 VIP guests nightly over a 2-week festival run
- Oversaw \$100K+ in nightly VIP revenue; implemented tiered bottle-service protocols sustaining satisfaction across 9,000+ guest interactions
- Managed high-profile client relationships directly, driving repeat attendance and upsell conversion

PROJECTS

Music Release Intelligence Bot

Mar 2026 – Mar 2026

- Configured CLAWDBot (OpenClaw) as an autonomous agent to continuously scan X (Twitter) and the iTunes API for trending artists and early release announcements
- Integrated with Telegram to deliver real-time alerts to my phone on new releases
- Enables immediate promotion and early engagement for FourMeasure by surfacing new releases the moment they go live

SyncSport

Feb 2026 – April 2026

- Designed and developed SyncSport, an AI-powered scheduling app that helps student-athletes balance practices, games, academics, recovery, and personal commitments
- Built the mobile interface in VS Code using SwiftUI, converting Figma wireframes into scalable calendar views, onboarding flows, and athlete dashboard screens
